LOADBAR REMOVAL TOOL

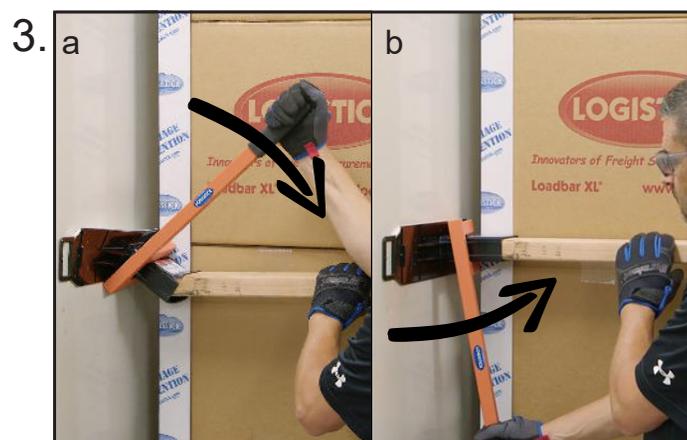

Place the forks of the Loadbar Removal tool around the pocket of the Loadbar.

Position the removal tool forks as close to the wall as possible.

Do not place removal tool forks on the 2x4.

Pull the handle away from the wall to collapse the pocket and roll the Loadbar off the wall.

Remove the board and repeat for the other side.

Do not pull toward yourself or push toward the freight.

Logistick Loadbar Pockets are made with #7 Plastic. Speak with your sustainability team and your Logistick representative about our recycling program.
