

# E-Track Ratchet Straps Recycling

A complete step-by-step guide to recycling E-Track ratchet straps.

1

The polywoven straps are not readily recyclable. Detach the polywoven strapping from **steel buckles and clips**. Explore options for reusing the strapping or consider appropriate disposal methods.

The **steel buckles and clips** are recyclable. After detaching them from the polywoven strapping, gather these steel components in a chosen box, gaylord, or container to accumulate a larger quantity before recycling.

2

3

Once the box, gaylord, or container is filled, reach out to a nearby metal/steel recycling company to arrange a collection or schedule a pickup. Depending on quantity and location, a recycler may compensate for the materials.

4

The **steel buckles and clips** are transported to a nearby steel recycling facility. Great job keeping waste out of the landfill! If you need help finding a local metal/steel recycler, contact your Logistick sales representative for guidance.
